

Automatic crimp tool

Increases your efficiency: Automatic adjustment of wire-end sleeve size with suitable crimping force for a large coverage area of 0.08-16mm². **Makes handling easier:** Thanks to hexagonal crimping, small wire-end sleeves no longer get caught. **Lowers your costs:** An integrated lever enables users to interrupt the crimping process at any time to protect the pliers. **Increases your safety:** Safe work through feed aid prevents crimping the plastic cover of wire-end sleeves.

INFOBOX: Automatic crimp tool

Hex crimping for wire-end sleeves

- Process-safe hexagonal crimping prevents smaller wire-end sleeves from snagging.
- These crimping pliers can handle all standard applications with a crimping range between 0.08 and 16 mm².
- Suitable for both single wire-end sleeves and twin wire-end sleeves thanks to automatic crimping.
